To whom it may concern,

We have had “Los Primos” play at our café many times. It has been more than pleasurable to have them here. We appreciate the many different styles of music they play. Every time they have been here they have greatly impressed not only our customers but they have also impressed us. They are professional, polite, and not to mention their music is amazing. We love to have them here and I am sure anyone would love to have them play. If there are any questions feel free to call us at (505) 247-8522.

Thank you,
